---

## Elevator Pitch

---

It is a group of 100 Quillasingas women (original people) who have been working for the rescue of Laguna La Cocha, RAMSAR zone, which gives rise to the Guamuez river that flows into the Amazon. They work on the conservation of native species, the restricted use of land for livestock and now they want to advance in the rescue of water through the restoration of 7 hectares. Which they will buy with the sale of their beauty products, made by themselves. For which they urgently need the financial re

**Website:** <https://zioning.com>

---

## Elevator Pitch

---

Zircular is an annual subscription platform that helps companies make a sustainable and intelligent energy transition through real-time prediction of energy savings potential. The platform monitors energy consumption and through the reports it analyzes and creates the path of energy improvements that simplify investment decision-making, shows the potential savings and the CO2 not emitted (using AI). The platform will seek to recognize the efforts in environmental sustainability in the path of en

# the game of helping to compact plastic bottles - Air & Environment

---

## the game of helping to compact plastic bottles

---

**Country:** Colombia · cali **Category:** Air & Environment **Impact Areas:** Adaptation **Stage:** Prototype

---

### Elevator Pitch

---

This idea consists of adapting a manual plastic bottle compactor next to the garbage cans with the added value that can entertain users through an indicator of the pressure force exerted by the user. These compacted bottles can reduce recyclable plastic storage deposits by up to 80%. Additionally, the material of the manual compactor is 100% plastic wood, to demonstrate the resistance of the plastic.
