Agricoforestal, siembra de verduras, arboles forestales y frutales. · Alimentación y agricultura (cultivos, silvicultura, animales, acuicultura)

Agricoforestal, siembra de verduras, arboles forestales y frutales.

Country: Guatemala **Category:** Alimentación y agricultura (cultivos, silvicultura, animales, acuicultura) **Impact Areas:** Mitigation **Stage:** Ideation **Team Size:** 10 **Funded:** YES **Founder:** Alberto Tomás Puác Vásquez

Elevator Pitch

It is the planting of vegetables and cultivation under protected conditions. It is the sowing of native fruit trees and also of hot soil.

Climate Problem

I resolve to provide work for my people. I contribute so that low-income families can have a daily plate of food on their table with what can be provided.

Solution

Through this project it would reduce the emigration of people to other countries in search of employment opportunities and a good economic income.

Revenue Model

Through sales of crop products depending on the time of development.

Target Market

Local and export.

Social Impact

Pueblos indígenas Personas que viven en la pobreza extrema

Demand Evidence

Because it is in high demand for daily consumption in my country.

Competitors

Public and private agricultural entrepreneurs and independent producers.

Founder Expertise

Theoretical and practical teaching and learning in the agricultural and forestry sector.

External Support

Ningino solo valdo de mi autonomia.

Team

Coordinator, 9-position board of directors

Founder

Alberto Tomás Puác Vásquez
